RESERCH INTERESTS

climate politics | democratic/electoral responsiveness | party politics | participatory democracy | civic engagement | multilevel governance

EDUCATION

2023 – 2026 (expected) **Freie Universität Berlin, Germany**
M.A. Sociology — European Societies
- Master's thesis: "The Transmission of a Deliberative Institution and its Outcomes into Parliamentary Discourse: The French Citizens' Convention on Climate" (currently being assessed)
- Current average grade: 2.0 (German grading scale; 1.0 = highest, 4.0 = pass)

2009 – 2011 **Kyung Hee University, South Korea**
M.A. International Development Cooperation (course taught in English)
- Overall grade: 3.66/4.30

2005 – 2009 **Gyeongsang National University, South Korea**
B.A. Political Science
- Overall grade: 3.96/4.50

Data Analysis Portfolio

Self-directed portfolio of reproducible quantitative analyses in R, publicly documented on GitHub: github.com/junhui-park/climate-politics_portfolio

- Environmental issue salience in party manifestos: using the Manifesto Project dataset covering five Western European countries and five party families, 1940–2020.
- Public support for regulatory climate policies: multilevel regression (lme4) of European Social Survey Round 8 data (23 countries, N > 31,000), examining socio-demographic and political determinants of support for climate taxes, subsidies, and bans.
- Dictionary-based text analysis used for a master's thesis: six independent R Markdown files for replication purposes using parliamentary debates of the French National Assembly covering between 15th and 16th legislative sessions.

RESEARCH EXPERIENCE

Jul 2019 – Apr 2020 **Korea Environment Institute (KEI), South Korea**
Researcher, Division of International Cooperation

PARK, JUNHUI

Berlin, Germany | junhui.p@gmail.com | +49 1637907714

https://junhui-park.github.io | Linkedin

- Conducted quantitative and qualitative research on sustainable development and environmental policy
- Applied the SDG Interlinkages Analysis & Visualisation Tool (IAVT) to assess environmental sustainability challenges
- Collected, processed, and analysed statistical data on Official Development Assistance (ODA)
- Conducted interviews and field research with government officials and international development practitioners
- Co-authored four policy research reports

Apr 2013 – Jun 2016 **Korea Environment Institute (KEI), South Korea**
Researcher, Division of Climate Change and Interdisciplinary Research

- Mapped Korea's national policies on sustainable development against the 2030 Agenda to assess implementation gaps
- Analysed preparatory SDG-implementation activities of six European countries (incl. Germany, Sweden, Switzerland) for comparative policy research
- Coordinated an international project on Vietnam's green growth master plan and studied national climate change adaptation strategies
- Conducted qualitative interview research with industry and government representatives (incl. field research in Russia)

Sep 2012 – Apr 2013 **Korea Environment Institute (KEI), South Korea**
Research Intern, Center for International Cooperation

- Conducted literature reviews and quantitative data analysis on environmental and development policy
- Assisted in policy research projects on sustainable development and regional cooperation

PROFESSIONAL EXPERIENCE

2020 – 2023 **Career break, South Korea**

- Prepared for graduate study abroad; academic English and French language training (French: DELF A2 certified)
- Family care during the COVID-19 pandemic

Aug 2016 – Aug 2018 **United Nations Environment Programme (UNEP), Nairobi, Kenya**
Associate Programme Officer (UN Volunteer), Secretariat of Governing Bodies

PARK, JUNHUI

Berlin, Germany | junhui.p@gmail.com | +49 1637907714

https://junhui-park.github.io | Linkedin

- Coordinated with UNEP divisions, regional offices, and member states
- Supported intergovernmental negotiations and multilateral environmental governance processes
- Facilitated preparations for the UN Environment Assembly (UNEA)
- Drafted diplomatic correspondence, briefing notes, and meeting documents
- Supervised interns and support staff

Mar 2011 – Sep 2011 **United Nations Educational, Scientific and Cultural Organization (UNESCO), Jakarta Office, Indonesia**

Intern, Education Unit

- Conducted research on climate change education and education for sustainable development
- Assisted in organising international meetings and educational programmes

PUBLICATIONS (most recent policy research reports)

- Kim, H., Kang, S., Kim, J., Hong, H., Park, J., & Lee, H. (2020). A Strategic Study to Develop Policy for Sustainable Development. Korea Environment Institute. (written in Korean)
- Kim, H., Lee, H., Park, J., et al. (2020). A Strategic Study to Develop a Roadmap for International Environmental Cooperation. Korea Environment Institute. (in Korean)
- Kim, H., Park, J., & Park, J. (2019). Korea's Development Cooperation for Environment in Cambodia. Korea Institute for International Economic Policy. (written in Korean)
- Kim, H., et al. (2019). A Study for Developing Assessment Criteria in Fine-Dust Management Policy. Office for Government Policy Coordination. (written in Korean)

Methods & Technical Skills

Quantitative	• Regression analysis: OLS, fixed-effects panel models, multilevel (mixed-effects) models • Dictionary-based quantitative text analysis • Descriptive statistics and data visualisation
Qualitative	• Framing analysis • Semi-structured interviews and field research
Software	• R
